Application Process Overview

This guide is provided to assist applicants in understanding the application process and requirements for the Ohio Historic Preservation Tax Credit program. Applying to the program is a multifaceted process that includes both the Ohio Development Services Agency and State Historic Preservation Office (SHPO).

The competitive Ohio Historic Preservation Tax Credit application is submitted online for review by the Ohio Development Services Agency. Prior to this submission, applicants must complete an Intent to Apply form and may hold a pre-application meeting with Ohio Development Services Agency program staff to discuss their project and application.

Applicable Part 1 and 2 forms, documenting the historic designation and proposed rehabilitation of the historic building(s), are submitted in hard copy for review by the SHPO. Prior to submission, applicants must request and hold a required pre-application meeting with SHPO program staff to discuss their project and application.

Following submission of both the historic documentation and application, the SHPO and Ohio Development Services Agency have cure processes to request additional information during the application review period. Applicants are encouraged to review section 3 of the program policies for additional detail on the application schedule and procedures.

Competitive Scoring

All applications are evaluated using a 100-point objective scoring process. Applicants self-score their application as part of the online submission. Scoring is verified by Ohio Development Services Agency program staff during the application review period. Prior to submission of the application, program staff can assist applicants in assessing potential competitiveness based on an anticipated self-score.

The competitive scoring includes 13 criteria that fall under two main considerations:

- **Regional Distributive Balance (30%)**
- **Potential Economic Impact (70%)**

Small and Intermediate Project Set-Asides

In order to ensure that a balance of small, intermediate, and larger projects are able to access the program, tax credit allocation is reserved in each round for small and intermediate scaled projects. Of the total available allocation in each round, 8% is set-aside for small and 25% is set-aside for intermediate projects. Projects qualifying as small or intermediate compete for these set-aside pools before competing against larger project applications for the remaining allocation. The below table outlines the Qualified Rehabilitation Expenditures and maximum tax credit required to qualify for these set-asides.

	Small	Intermediate
Qualified Rehabilitation Expenditures (QREs)	Less than \$1,250,000	\$1 - \$10 million
Maximum Tax Credit	\$250,000	\$2 million

Intent to Apply

The Intent to Apply form is available at www.ohptc.development.ohio.gov.

Applicants must complete the Intent to Apply form prior to submission of an application. During Round 15, it is requested that applicants complete the form no later than September 10, 2015. The Intent to Apply includes basic questions about the project, including rough cost estimates, contact information, and current status of historic designation and ownership or leaseholder interest.

Online Application

The program application is available at www.ohptc.development.ohio.gov.

Applicants must first create a log-in to access the online application. From the program website, expand 'Application Information' and select 'Round 15 Application.' At the link, enter an email address and create a password. The system will automatically generate an email to confirm your account.

TIPS

- Complete the application fields in order. Although the fields can be edited prior to final submission, initially completing fields out of order will change the order of the fields in the PDF that will be generated when the application submission is made.
- Never use your web browser's back button. Use the arrows at the bottom of each page (<< >>) to navigate forward and reverse.
- Information entered into each page will not be saved until the arrow at the bottom of each page (>>) is used to advance to the next page.
- The application will accept attachments in PDF, Excel, and Word format. However, PDF format is preferred for all attachments.
- Attachments cannot be deleted once uploaded, but can be replaced. To replace an attachment, simply select 'Browse' and upload a new attachment.
- Prior to submission, the application will allow applicants to review responses. The application will also generate a PDF that can be downloaded as a record of the submitted application.
- A Table of Contents will track your progress on the left side of your browser. To minimize or reopen this feature, click on the menu icon (three horizontal lines) in the upper left corner.

Catalytic Project Applications

Applications for catalytic projects will be accepted during Round 15. Catalytic projects are large-scale rehabilitation projects that will foster significant economic development. Catalytic project applications are eligible to receive up to \$25 million in tax credits and undergo additional review. Applicants seeking to apply as a catalytic project under the program should consult section 6 of the program policies. In addition to submission of the online application, catalytic project applicants must submit the items detailed in program policy 6.3 to demonstrate how the project will foster economic development within 2,500 feet of the historic building. This documentation should be identified as Attachment A7 and submitted in a three-ring binder with the application fee. This documentation must be submitted no later than the application submission deadline.

Step-by-Step Instructions

The following step-by-step instructions are provided to assist applicants in completing the online application. Applicants are responsible for reading all instructions prior to submission.

SECTION A – Eligibility Criteria

A1. Trade Secret Information

All applicants are strongly discouraged from including in an application any information that the applicant considers to be a “trade secret,” as that term is defined in Section 1333.61(D) of the Ohio Revised Code. All information submitted in the application is public information unless a statutory exception exists that exempts it from public release. If any information in the application is to be treated as a trade secret, the applicant must:

- **IDENTIFY** each and every occurrence of the information within any attachments with an asterisk before and after each line containing trade secret information and underline the trade secret information itself.

To determine what qualifies as trade secret information, refer to the definition of “trade secret” in Section 1333.61(D) of the Ohio Revised Code, which is reproduced below for reference:

(D) “**Trade Secret**” means information, including the whole or any portion or phase of any scientific or technical information, design, process, procedure, formula, pattern, compilation, program, device, method, technique, or improvement, or any business information or plans, financial information, or listing of names, addresses, or telephone numbers, that satisfies both of the following:

- (2) It is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

The Ohio Development Services Agency requires non-disclosure agreements from all non-agency persons who may have access to applications containing trade secret information, including evaluators.

- **SELECT** the appropriate option to indicate if the application contains trade secret information.

This page can be revisited at the end of the application process.

2	S2	A2%	B2%	C2%	FV2	FP2
3	S3	A3%	B3%	C3%	FV3	FP3
Total Sq. Ft.	$S1+S2+S3+\dots = T$	Total Average Vacancy Rate for Year				$FP1+FP2+FP3+\dots$

During the application review period, the Ohio Development Services Agency may make site visits to assist in verifying project vacancy.

The financial commitment can include loans, grants, tax abatements, land/building donations, and tax increment financing revenues and must support activities that are in close proximity and directly related to the project.

The amount of commitment must exceed three percent of the Remaining Investment to Complete Project value.

For tax abatements, if a final application or ordinance has not been approved but the jurisdiction has an established abatement program covering the geography of the project location, provide a letter from the local jurisdiction stating the proposed project meets the eligibility requirements for tax abatement.

- **LABEL** the attachment with the following nomenclature: **“ATTACHMENT C11.3 – project name”**

D1. Property Market Value and Proposed End Use

- **COMPLETE** the Property Market Value and Proposed End Use fields. The 'Current Market Value of Property' should be based on a recent sale, appraisal or county auditor's record. The 'Future Appraised Value, Post-Construction' should be based on the projected value based on an as-complete appraisal, income approach valuation or other documented valuation. For each end use, input the percentage each will occupy in the project, based on the total project area. The analysis will use this data to calculate property tax.
- **SELECT** the appropriate option to indicate whether the project will utilize the charitable property tax exemption authorized in Section 5709.121(B) of the Ohio Revised Code.

D2. Construction

- **COMPLETE** the Construction Jobs fields representing labor required to construct the project. The 'FTEs' should be based on annual aggregated employment (in whole numbers) of full-time (e.g. 40 hours/week) jobs lasting one year. Non-staged projects should only include impacts during the first two years. The analysis will use this data to calculate income taxes.

D3. Operations

- **COMPLETE** the Operations Jobs and Receipts fields representing labor required to operate the project and anticipated revenues (e.g. rents) once complete. The 'FTEs' should be based on annual aggregated employment (in whole numbers) of full-time (e.g. 40 hours/week) jobs lasting one year. The analysis will use this data to calculate income and sales taxes.

D4. Residents

- **COMPLETE** the Residents fields representing residential units anticipated to be occupied in the project once complete. The 'Income' should be based on the average per-unit resident annual income, not the aggregate income for all residents. The analysis will use this data to calculate income taxes.

D5. Tenants

- **COMPLETE** the Tenant Jobs and Receipts fields representing labor required by anticipated tenants and their anticipated revenues (e.g. sales). The 'FTEs' should be based on annual aggregated employment (in whole numbers) of full-time (e.g. 40 hours/week) jobs lasting one year. The analysis will use this data to calculate income and sales taxes.

D6. Hotels

If the applicant is developing a hospitality use as part of the project:

- **COMPLETE** the Hotels Rooms/Keys fields representing anticipated hotel impacts. The analysis will use this data to calculate lodging and sales tax for applicable projects.

D7. Cost-Benefit Data Documentation

- **ATTACH** a compiled PDF that includes documentation or references for the cost-benefit data input in D1-6. Acceptable documentation includes, but is not limited to, project pro formas, market studies, appraisals, contractor or architect estimates, business plans and labor or housing statistics.
- **LABEL** the attachment with the following nomenclature: "ATTACHMENT D – project name "

SUBMISSION

The final step in submitting the application is to complete and upload the Authorized Representative Declaration Form. The form can be downloaded on the submission page following Section D or found on page 32 of this document. This form acts as the official signature on the application.

- **ATTACH** a completed Authorized Representative Declaration Form.
- **LABEL** the attachment with the following nomenclature: “Authorized Representative – project name”

After uploading the Authorized Representative Declaration Form, the next page will provide the applicant one last opportunity to edit and/or review responses. This is the **FINAL** opportunity to edit the application.

Once the applicant is ready to submit the application, select the ‘Submit & Generate PDF’ button. If the applicant chose to continue editing, this button can be found by selecting ‘Generate PDF’ in the Table of Contents. Clicking the ‘Submit & Generate PDF’ button will lock the application and no additional edits can be made.

After the ‘Submit & Generate PDF’ button is selected, a downloadable version of the application responses will be generated in PDF format.

- **DOWNLOAD** the PDF of the application responses and save to your computer. This PDF can be distributed to all project partners as a record of the application submitted.
- **SCROLL** to the very bottom of the page and click the arrows (>>) to finalize submission of the application.

If the application has been successfully submitted, a summary of the 94 points that can be self-scored will appear.

REMINDER: Be sure to mail or deliver the application fee, as explained in A6 – Pre-Application Meeting and Application Fee. An application submission is not fully complete until the fee is received by the Ohio Development Services Agency.
